GET TUCKER'D

Mountain Bike Trail Suggestions

Beginner

Camp 70: To get your first real taste of mountain biking as a beginner/novice rider, head to Camp 70 road in the Little Canaan Wildlife Management Area in the town of Davis. Park in the first lot on your left. Beaver Creek Trail, Sherald's Shunt and Trials Road are all suitable choices. Just don't be afraid to get off the bike and walk if needed.

Back Hollow Trail: The gentlest trails for that off road experience are found at Canaan Valley Resort State Park. Back Hollow Trail and Monarch Trail take you through open meadows and classic woodlands surrounding the state park. Park at either the main lodge or nature center for easy trail access and additional trail information.

Dales Trail: Thomas City Trails have been working toward the first purpose built bike trail in Tucker County. The system is now half complete with a finished surface. Young new rippers and their parents have been taking advantage of the freshly cut trail with great enthusiasm. If the local children give their stamp of approval, so should yours!
